

# Mat Graphic Inserts

Created Custom with Your Design

The power of control. Automated.

For more than half a century, the Larco brand has manufactured the most reliable and durable presence-sensing mats available. Now, we have developed a new graphic insert that you can customize with any image and text to promote your brand and message. Grab the attention of your employees and visitors by adding this option to your next mat order.

We start by printing your graphic image on the back of a 75 mil thick, clear polyvinyl material which provides the ultimate in image protection and is suited for heavy traffic. An aggressive adhesive is applied to the back of the Larco Mat Graphic Insert after printing. The graphic is then adhered to the mat insert surface.

The material properties for this product reflect many of the same properties as those found in the Larco industrial safety mats, such as impact resilient, unparalleled durability and versatility.

**Contact Larco CCT to find out how you can take the next step to add signs, images and messages to your customized Mat Graphic Inserts.**
